"Just Did It!" QI Form

Not every problem/area of improvement requires a full-blown Quality Improvement (QI) project to improve it and/or a process. Sometimes problems arise and areas of improvement are identified and you can come up with a solution or process improvement...... you JUST DID IT!

Wonderful! Now, please share what you did and how you did it by filing out this form!

What is the problem?

What did you do to improve it?

How it is going now?

What would you do differently next time? Is there room for further improvement?
