DISTRICT 4/PUBLIC HEALTH
Debbi Heard, Executive Assistant/Board of Health Liaison

Debbi Heard provided the District 4 Public Health report & updates.

Accreditation- Susie Hammock has completed the training in Washington and we are set to “push the button” to submit our documentation on March 1st. 255 documents resulting in thousands of pages will be submitted. We will “push the button” at 1pm by VICS, with each health department participating. BOH members are invited to join. After uploading the documents, we will wait for PHAB to schedule the site visit. We anticipate the visit in the Fall and receive Accreditation status by January 2020 or sooner. We have requested the site visit prior to September 26th, but do not anticipate it being scheduled that soon. Dr. Obasanjo is being deployed and leaves for Kuwait September 27th and will be gone for 4 months. Domain 12 is Governance (BOH) and emails went out explaining the section and measure, and what was being submitted to satisfy that domain. More will be coming. We will be asking for board members to volunteer to be interviewed by the site visitors, and we will be providing a training and invite to the mock site visit to be scheduled.
GPHA – The Annual Georgia Public Health Association Conference is being held in Atlanta, May 8-10. The Governance Section is for Board of Health members. Please go to the GPHA website and look at the agenda and let Debbi know if you plan to attend. She will do your registration and hotel reservations.

Each year nominations are submitted for the different sections and a person is chosen to receive an award based on the criteria. This year, Glinda Scott, Henry County EH Manager was chosen to receive the EH Section Award.

Professional Development Day - The date for Professional Development Day is May 3rd (see flyer in packets). We invite our board members to join us. Let us know for the lunch head-count.

Superbowl - The District 4 Emergency Preparedness Program served as back-up to Atlanta counties. Environmental Health assisted Clayton County with restaurant inspections. They had a 3-year backlog. District 4 assisted by completing a total of 167 restaurant inspections to date.

BOARD MEMBER UPDATES/REPORTS/COMMENTS

Tattoo Codes - Attorney Steven Jones updates the Board of the two tattoo bills that stalled in General Assembly. Melinda Knight states that the bills will possibly make it through General Assembly later in the year by being tacked onto another existing tattoo bill.

Animal Hoarding – Johnie McDaniel made the motion to add “Animal Hoarding” as an action item on the next meeting agenda. Motion seconded by Holly Murray.

Standard of Living Conditions – Johnie McDaniel made a motion to authorize Steven Jones to respond to county official requests stating that the Board of Health does not desire to enact code whereby the Health Department would enforce a standard on living conditions. Motion seconded by Holly Murray.

<td>Activity Report</td>
<td><strong>Food Service:</strong> In this reporting period, there are currently 5 Food Services pending receiving a permit. One new restaurant was opened and one restaurant closed. Kelly Wilson pointed out that inspections have doubled with Gina Duffey being added on staff. She said Gina is doing a fantastic job. Chairman Johnnie McDaniel asked about whether the new donut shop has opened. Kelly Wilson replied that Tasty Donuts has indeed opened.</td>
</tr>
<tr>
<td></td>
<td><strong>OSSM:</strong> New permits issued in this reporting period are down, but repair permits and installations are up, compared to 2018. This may be related to heavy rainfall in November and December. Chairman Johnnie McDaniel asked Kelly Wilson about drip emitter systems, and if they work well. Kelly said she does not see many drip systems anymore because new technologies have been approved. Kelly said that as a whole, drip emitter systems work but this is dependent on maintenance that must be done on these systems. Chairman McDaniel also asked Kelly Wilson about polystyrene systems and what length is required when using them. Kelly said the length depends on the percolation rate assigned to the soil, but the average length is 65 feet per bedroom. The high capacity polystyrene systems are downsized 35% from the length of gravel systems.</td>
</tr>
<tr>
<td></td>
<td><strong>Rabies:</strong> One animal was tested with negative results. Kelly Wilson reported this bite was to a person from a dog during a house fire incident.</td>
</tr>
<tr>
<td></td>
<td><strong>Fees:</strong> Kelly Wilson pointed out that fees are higher this reporting period than last year, with the largest increases in the body art program and septic program.</td>
</tr>
<tr>
<td>Personnel Update</td>
<td>Kelly Wilson introduced Melinda Knight as the new Environmental Health District Director. All Board members welcomed Melinda.</td>
