COVID-19 Response Summary October 12, 2020

Incident Command Briefing

Global cases have surpassed 37.3 million while cases in The United States of America are at 7.7 million. The State of Georgia currently has 327,407 cases and 7,294 deaths. The State of Georgia has tested 3,421,378 residents. District 4 Public Health cumulative COVID-19 cases are at 20,585 and 612 deaths.

District 4 Closed POD partners were notified of the opening enrollment into the COVID-19 vaccination site program (Closed/Open). The Medical Countermeasures Coordinator is available to discuss vaccination site enrollment for all Closed POD partners. District 4 will receive its first shipment of the Abbott BinaxNow rapid antigen and is working with the Epidemiology Team to identify communities/schools/businesses that may benefit from this rapid antigen test. The District 4 Public Health Epidemiology Team distributed the school bi-weekly report and the 4-week prediction analysis last week. A decrease in cases per capita shows that the district could be moving from an uncontrolled community-wide spread to a controlled community-wide spread. The Epidemiology Team would like to preface this information by saying variables like enforcing mask policies, social distancing, increased hand hygiene, and limiting large gatherings are all significant variables that could change the current prediction. The top settings for outbreaks in Georgia are School Settings (25) and Long-Term Care Facilities (15) this past week.

This week's operational focus will be to plan on the usage for the the BinaxNow rapid antigen testing, reviewing Epidemiological Data to determine hot spots for messaging and testing in our communities, purchasing winterized equipment and continued planning for receiving, storing and disseminating the COVID-19 vaccine.

COVID-19 Operations Report 10/12

1,481 specimens collected by District 4 Specimen Points of Collection (SPOCs) over the past week.

- **Butts** -Thurs. (9 am - 11 am) **12** specimens collected
- **Carroll** – Wed. (8 am – 1pm) **124** specimens collected
- **Coweta** – Mon.- Fri. (8 am –1 pm) **426** specimens collected
- **Fayette** –Tues. & Fri. (8 am -1 pm) **242** specimens collected
- **Heard** – Mon. (9 am-11 am) **9** specimens collected
- **Henry** – Mon.- Fri. (8 am –1 pm) **464** specimens collected
- **Lamar** - Thurs. (8 am-1pm) **29** specimens collected
- **Meriwether-Greenville** – Wed. (9am -11 am) **22** specimens collected
- **Meriwether-Manchester** - Fri. (9 am -11 am) **27** specimens collected
- **Pike** - Tues. (9 am – 11 am) **27** specimens collected
- **Spalding**- Tues. (9 am – 11 am) **22** specimens collected
- **Troup** – Mon. (8 am – 1 pm) **21** specimens collected
- **Upson**- Wed. (8 am- 1 pm) & Sat. (9 am – 12 pm) **48** specimens collected

Serving Butts, Carroll, Coweta, Fayette, Heard, Henry, Lamar,
Meriwether, Pike, Spalding, Troup, and Upson Counties

- **1 Mobile SPOC**- Thomaston Housing Authority **8** specimens collected

The average turnaround time for lab results is 2 days.

We continue to promote testing for COVID-19. Operations and logistics are working to identify areas in need of mobile, “pop up” SPOCs.

Meriwether is the only SPOC operating on Columbus Day Holiday 10/12, 9 am – 12 pm.

October Saturday SPOC Schedule (9 am – 12 pm): 10/3- Upson, 10/10 Upson, 10/17- Troup, 10/24- Carroll and 10/31- Meriwether.

County Health Departments

All services being offered. Employees and all who enter the buildings are encouraged to wear a mask, have temperature checked and screened for illness. The doors to the majority of the clinics are no longer locked.

Contact Tracing Team Summary for 10/3/2020 @1201 – 10/11/2020 @ 1050

- Total # of calls made by District 4 Contact Tracers = **1,571**
- Total # of individuals currently enrolled in monitoring ongoing (these individuals report by SMS or phone daily) = **399**
 - 360 engaged and no symptoms
 - 17 engaged and symptomatic
 - 22 not engaged
- Total # of individuals enrolled in manual monitoring = **28** (DPH calls these individuals daily during the duration of their monitoring/quarantine period per the contact’s request)
 - 15 engaged and no symptoms
 - 4 engaged and symptomatic
 - 9 not engaged
- Total # of new contacts pending = **147** (contact for most of these individuals has been initiated/attempted, but no response as of now or they need additional follow-up)
- To date, **8,028** cases have been entered in the DPH Google MTX platform as of 10/11/2020
- Total # of case interviews completed by District 4 Case Investigators = **899**

Staffing Summary as of 10/11/2020:

- 1 PH RN
- 2 EPI
- 1 Resource Coordinator
- 68 Contact Tracers
- 5 Contact Tracer Supervisors
- 80 Case Investigators

- 7 Outbreak Case Investigators
- 3 Case Investigator Supervisors

Continuity of Operations

Total number of employees exposed: 134

Negative results: 107

Positive results: 24

Exposed not tested: 2

Pending: 1

Epidemiology

11 Defined Outbreaks

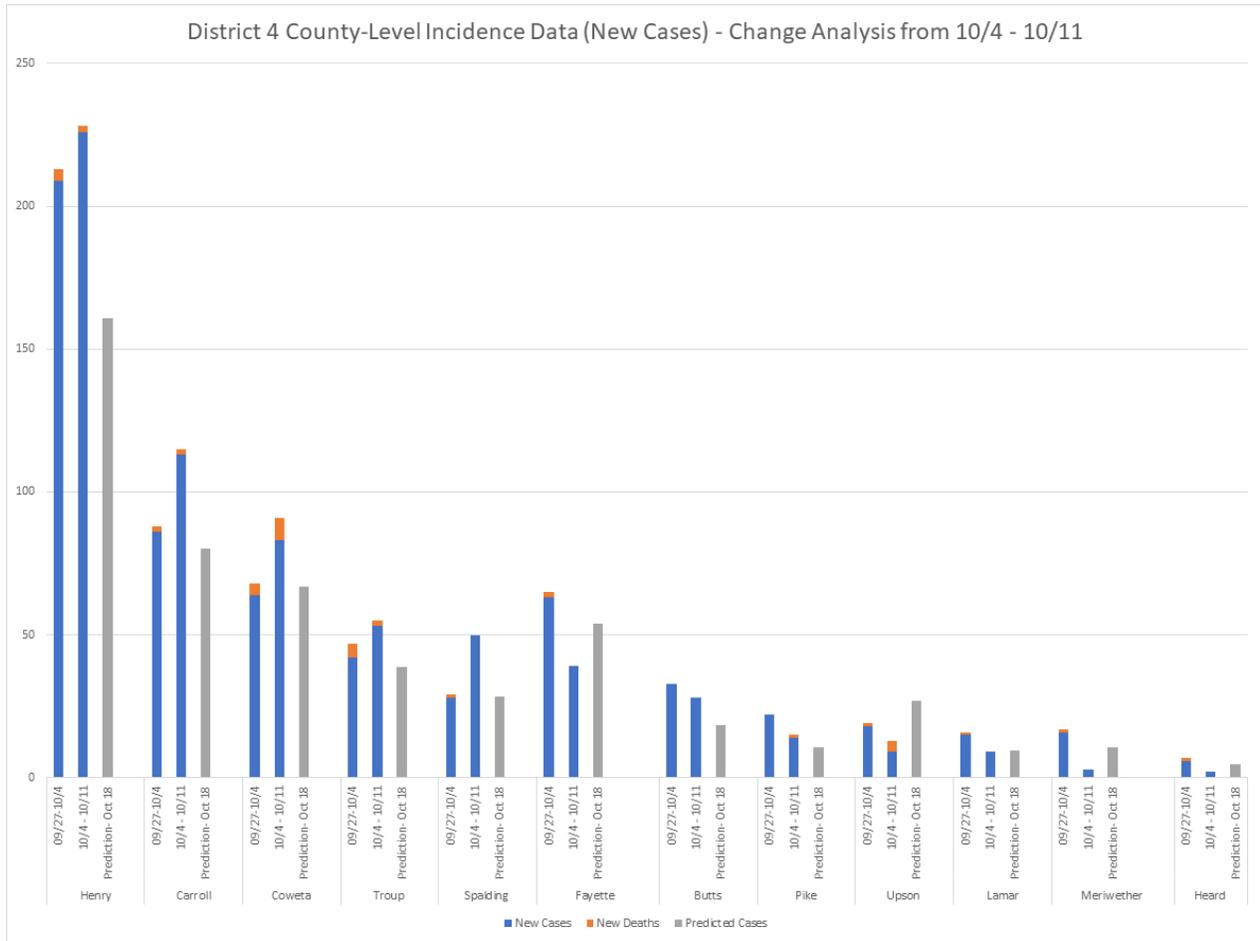

Confirmed and Presumptive COVID-19 Infections: 20732 median age: 42

Confirmed and Presumptive COVID-19 Deaths: 612 median age: 76

Numbers as of 2:30PM 10/11/20

	CASES	INCREASE CASES SINCE LAST WEEK	DEATHS	INCREASE DEATHS SINCE LAST WEEK
BUTTS	714	+28	43	+0
CARROLL	2944	+113	72	+2
COWETA	2745	+83	58	+8
FAYETTE	1941	+39	51	+0
HEARD	202	+2	6	+0
HENRY	5634	+226	106	+2
LAMAR	388	+9	19	+0
MERIWETHER	554	+3	14	+0
PIKE	360	+14	11	+1
SPALDING	1409	+50	62	+0
TROUP	2882	+53	103	+2
UPSON	812	+9	67	+4
Total	20585	+629	612	+19

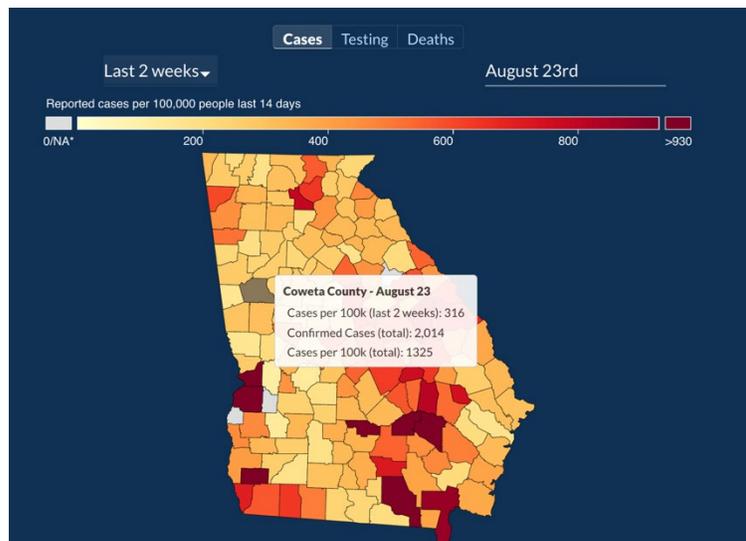

- Note: Fayette deaths dropped from 52 to 51 on the DPH website on 10/9/20

County Transmission Levels on <https://dph.georgia.gov/covid-19-daily-status-report>

Hover over any county on the map of GA and look for Cases per 100K (last 2 weeks). This will allow you to view the cases per 100K any day of the week and compare it to other counties.

Once you have the number of cases per 100k (last 2 weeks) you can determine each county's community spread level using the table below.

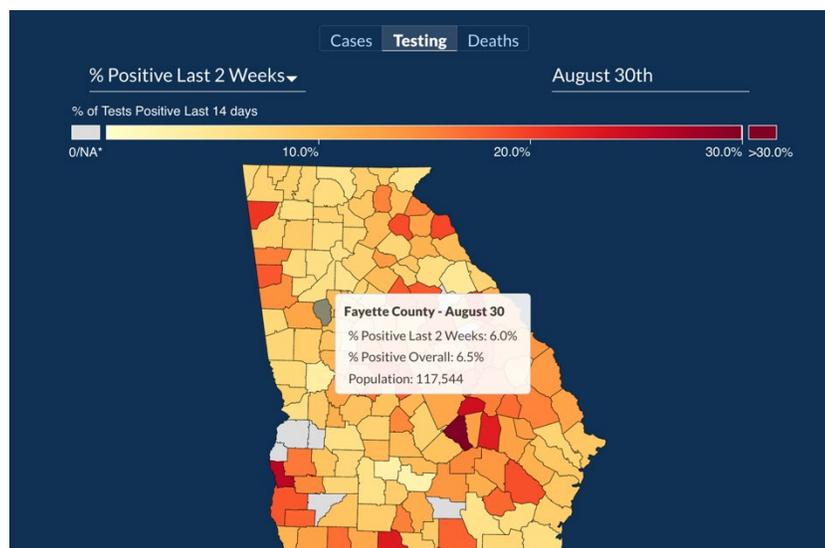

Data Description
Confirmed COVID-19 cases includes all cases of COVID-19 reported to DPH and confirmed with a molecular (PCR) laboratory test. As cases continue to be investigated and data quality checks are performed, the data in this report is subject to change.
County indicates case county of residence.
14-day incidence rate indicates newly reported confirmed COVID-19 cases among county residents per 100,000 residents during the 14-day period indicated, using 2018 U.S. Census data to derive county population.
COVID-19 Transmission Levels
High: greater than 100 cases per 100,000 county residents – CDC Level - Substantial, Uncontrolled
Moderately High: greater than 50-100 cases per 100,000 county residents – CDC Level - Substantial, Controlled
Moderate: greater than 10-50 cases per 100,000 county residents – CDC Level - Moderate
Low: 0-10 cases per 100,000 county residents – CDC Level - Low
Insufficient data: rates cannot be accurately calculated for counties with < 5 cases. These counties may have low levels of transmission but may be affected by other factors such as levels of COVID-19 testing. Counties in this category should consider other factors affecting the school district, including the transmission category of surrounding counties.

% of tests positive <https://dph.georgia.gov/covid-19-daily-status-report>

% Positive Last 2 Weeks: Reflects the percent positive PCR tests reported through ELR by county during the last 2 weeks.

% Positive Overall: Reflect the cumulative percent positive PCR tests reported through ELR by county
