MEASLES PROTECTION FOR A HEALTHY START

Don't Let Measles Catch Up to Your Child!

Ensure your baby or toddler is safe from measles with the MMR vaccine! This highly effective vaccine protects against measles, mumps, and rubella.

Consult with your health department or healthcare provider today and schedule your child's MMR vaccine. Protect your child, your family, and your community from measles!

Recommended Schedule:

- Two doses of the MMR vaccine are recommended by doctors as the best way to protect against measles, mumps, and rubella.
- First dose: 12-15 months
- Second dose: 4-6 years

Special Cases:

- Traveling abroad? Your child may need an early dose (as young as 6 months).
- During outbreaks, your healthcare provider may recommend an earlier vaccination schedule.

FOR APPOINTMENTS AT YOUR COUNTY HEALTH DEPARTMENT:

Appointments are required.
No walk-ins, please!
